

**Our toolhangers are especially useful to carpenters, framers and other professionals who frequently use wormdrive saws and nailers. Allows the tool to be hung conveniently and safely on most joists, rafters, trusses, etc. When the tool is not needed, it folds flat out of the way, making it more convenient than previous skyhooks. It comes complete with all the necessary hardware and instructions to ensure a proper fit. The hanger is solid steel with zinc plating. Made in the U.S.A.**

***FULL FACTORY WARRANTY!***
